

PLAYNETIC

AUSTRALIA playing with energy

Turn the disc, keep turning!
This generates energy.

Put the phone on the loudspeaker and
put it in the designated area, under the
protective hood.

The DJ Post amplifies the sound
from any phone!

The built-in tech picks up the
sound of the phone automatically.
No Bluetooth, no cables!

It is always nice to listen to your
own music.

Every hangout needs one!
