[Ash #7038]

Middle Grey #055  
[Thunder #7037]

Dark Grey #045  
[RAL #7011]

Custom EPDM colour mix. <https://gezolan.com/en/products/mix-it/>

Please note, all colours are affected to varying degrees by colour shift through aromatic binder coating.

Colours: **White #060, Eggshell #056, Bright Blue #064 & Grey #065** are more likely to experience a temporary yellow hue colour shift when installed with industry standard Aromatic Binders. The colour shift can last approximately 2-5 months, dependent on usage levels and UV exposure levels.

Please ask your consultant about options available if one of these colours is selected and finished colour accuracy is important on your project. We can modify the binder to a Premium Aliphatic binder for additional cost, which will greatly reduce the colour shift effect.

Please check with your consultant about colour availability.
