PlayKote 

## PlayKote Precoat Range

**Fawn  
#833**

**Sand  
#816**

**Khaki  
#820**

**Shiraz  
#049**

**Galaxy  
#053**

**Caribbean  
#054**

**Silver  
#057**

**Bourbon  
#521**

**Leaf  
#812**

**Nature  
#051**

**Emerald  
#052**

**Black  
2-5mm**

PlayKote Precoat recycled SBR is made from recycled black rubber SBR granules, factory coated with high grade colour pigments as per the choices above. PCSBR is a great budget choice, ideal for use in low to moderate usage environments.

**IMPORTANT!** Lighter colours such as Silver, Fawn and Caribbean may experience a temporary yellow hue colour shift when installed with industry standard Aromatic Binders. The colour shift can last approximately 2-5 months, dependent on usage levels and UV exposure levels. Please ask your consultant about options available if this colour is selected and finished colour accuracy is important on your project. PCSBR surfaces in high use areas that experience colour fade, darkening and or surface pitting will not be considered a product defect, Gezolan EPDM is much more suited to high use installations and therefore recommended.
