**Grey #065**  
[Ash #7038]

**Middle Grey #055**  
[Thunder #7037]

**Dark Grey #045**  
[RAL #7011]

**Please note;** all colours are affected to varying degrees by colour shift through aromatic binder coating.

The brighter and lighter colours in the range are more likely to experience a temporary yellow hue colour shift when installed with industry standard Aromatic Binders. The colour shift can last approximately 2-5 months, dependent on usage levels and UV exposure levels. Please ask your consultant about options available if one of these colours is selected and finished colour accuracy is important on your project. To achieve a colour fast finish, **request the use of a UV stable Premium Aliphatic binder** to be used with your Gezolan EPDM granules for an additional cost.

Please check with your consultant regarding colour availability.
