## PLAYKOTE RUBBER MULCH RANGE

Rubber Mulch is created from recycled tyre rubber. It is designed to be installed with Polyurethane Binder, creating a fixed surface. This recycled product exhibits a natural bark appearance accompanied by the reduced need for ongoing maintenance compared to alternatives like loose bark.

- Minimal subbase works required, offering simple installation.
- Able to achieve a greater Free Height of Fall, when installed at correct depth.
- Enhanced permeability, especially when an aggregate base is installed.

Ideal for Pathways, Golf Courses,  
Residential Spaces, Schools, Parks,  
Playgrounds, Child Care centres,  
Tree pits.
